## CPN Flat Cable Overview

### Description

CPN flat is a cost effective polypropylene insulated cable.

### Components

- 1 - Armor: Galvanized steel
- 2 - Jacket: Oil resistant, patented flexible Nitrile
- 3 - Insulation: High dielectric polypropylene
- 4 - Conductor: Solid tinned copper

### Features and Benefits

**Standard service:** Operating temperature of -30°F (34°C) to 205°F (96°C)

**High dielectric electrical grade polypropylene insulation:**  
Formulated for down-hole applications

**Nitrile rubber jacket:**  
Adds physical protection and reduces the possibility of damage due to gas, heat or pressure

**Galvanized steel armor:** Overall protection

**Special edge coated armor:** Edge coated on all four sides, providing the best in corrosion protection

**Flat configuration:** For wells with marginal clearance
